Compliance

Accident Kit, Emergency Equip, Hazmat, Ifta, Insurance, Permits, Registration, Service Due

QUESTIONS?

Call your supervisor

All drivers should be using the Zonar system to perform pre- and post-trip inspections of both the TRUCK and TRAILERS.

If your trailer is equipped with the 3 zone tags, scan and inspect each zone.

If your trailer does not yet have the tags, press the info (*i*) button to manually enter in your trailer number and inspect the trailer. If you're pulling a rented trailer, manually type RENT + last four digits of the V.I.N. (example: RENT4889).
